FLYING REVIEW INTERNATIONAL

Index for Year 1977 — Volume XXXII

PRINCIPAL TOPICS

1 V/STOL's coming of age
Belgium's aerospace industry gets ready for the F-16
Air Forces of the World—1977

2 General aviation
Agricultural aircraft on show at Las Vegas
Concorde operations: the first year

3 Jet trainer/strike aircraft
Electronic warfare
The Soviet MiG-23 combat aircraft family

4 Helicopter special: HAA show report
Western European views on military helicopters
Technical data on civil and military rotorcraft

5 The French aerospace industry
Third-level air transport
The MiG-25 Foxbat weapon system

6 Aerospace industries of the USA and Europe
The Swiss industry
Composites in aircraft structures

7 Paris Air Show report
Space special: Shuttle progress
US military aircraft and missile requirements

8 New civil transport projects
The Italian aerospace industry
The F-16 co-production programme

9 Business aviation
Air transport in Southern Africa
Flying the YC-15 AMST

10 Air transport worldwide
Ground radar catalogue
Twenty years in space

11 The Tornado Multi-Role Combat Aircraft
Microwave Landing Systems
The NBAA business aircraft show

12 Transport aircraft of the future
Communications satellites
The Learjet Longhorns

SUBJECT INDEX

(in date order)

CIVIL AVIATION

a) Air transport

Talking of safety—Part 2; *Douglas H. Chopping* 1/67
Austrian Airlines: quietly successful; *Klaus Höhle* 2/159
Concorde operations one year on: 2/162
Burma Airways developing despite difficulties; *Nol van Fenema* 2/164
Meeting to examine air transport's problems 3/199
Indian Airlines puts the Airbus into service and acquires a new dimension; *Peter Tallon* and *Brian Davidson* 3/201
Linjeflyg re-equips with F.28 Fellowships; *Robert Salvy* 3/204
Editorial: From overcapacity to undercapacity? 3/185
KLM Noordzee Helikopters: vigorous growth and a promising future; *Klaus Höhle* 4/323
Talking of safety—Part 3; *Douglas H. Chopping* 4/344
French air transport—an uncertain relationship with the State; *Michael Brown* 5/474
Swissair 1976: the blue-eyed boy flies again 5/389
Third-level air transport: growth with problems; *Klaus Höhle* 5/476
Airport surface movement indication: Decca sees growing market 6/610
Hollandse Signaal ASDE at Schiphol 7/744
Air-India: on the trail of the Flying Centaur; *H. P. Mama* 7/711
A new impetus to third-level air transport in West Germany; *Klaus Höhle* 7/715
The Bureau Veritas: 150 years of supporting transportation safety 7/734
Talking of safety—Part 4; *Douglas H. Chopping* 7/738
A difficult choice for the airlines: marketing considerations behind the new transports for the 80s 8/794
A.300 facts and figures 8/796
Iberia celebrates its 50th year of activity and prepares for the future; *Peter Tallon* 8/791
Aviation in the Canadian Arctic; *Martin Noble* 8/815
Charges: are they becoming a threat to international civil aviation? *Cornelius Lakeman* 9/915
Alitalia: looking for the light at the end of the tunnel 9/918
Air transport in Southern Africa: SAA and Air Rhodesia ponder their future; *Henry Krug* 9/920
Guest editorial: The air transport industry today; *Knut Hammarskjöld* 10/957
The European charter scene: dynamic, but problematic 10/991
Pillars of World Air Transport 10/1003
Farewell to frills—the British Airways Shuttle after 30 months operation; *Michael Brown* 10/1031
British Airways re-equipment plans; *Derek Wood* 10/1033
Alia: Jordan's fast-growing airline; *Brian Davidson* 10/1035
Aer Lingus: diversification points the way to profits 11/1152
Spanish charter airlines: fighting for a better market share; *Peter Tallon* 12/1235
Qantas: preparing for the 1980s; *Henry Krug* 12/1238
Swift Aire: a typical US commuter airline with European equipment; *J. Philip Geddes* 12/1240
Pillars of World Air Transport—postcript 12/1280

b) General aviation

General aviation in the USA: the moment of truth 2/115
Exports essential for US general aviation manufacturers 2/121
Business aviation in Europe; *Thomas Stocker* 2/131
The Dassault-Breguet Falcon 50 begins flight tests; *Marc Grangier* 2/134
The Beech Bonanza: thirty years young; *Marc Grangier* 2/137
General aviation flight simulators: an expanding market 2/143
Business jets as aerial ambulances 2/145
Islander family survey: Fairey's rescue pays off; *Derek Wood* 2/147

US piston-engined light aircraft technical data 2/151
Agricultural aircraft on show; *J. Philip Geddes* 2/171
Helicopter hopes on the rise at HAA; *J. Philip Geddes* 4/291
Bell Helicopter's Model 222; *J. Philip Geddes* 4/295
Heli-Union—diversification is the secret behind success; *Marc Grangier* 4/326
Heli-Orient and the awakening giant; *Marc Grangier* 4/329
General and business aviation 5/471
Field Aviation Ltd: a leading FBO; *Marc Grangier* 7/731
Swearingen: boom to bust and back again; *J. Philip Geddes* 8/818
Business aviation in the USA: a review of the industry; *Marc Grangier* 9/871
Weather radars for business aircraft: the revolution has begun 9/877
Business aircraft 1977 in colour 9/879
Business aircraft technical data tables 9/883
Reading Show continues to flourish; *Howard Levy* 9/895
Atlantic Aviation: a front-runner for 50 years; *Marc Grangier* 9/897
Lockheed JetStar II flight report; *Douglas H. Chopping* 9/900
Editorial: The prospects for European general aviation production 9/841
US general aviation in fine shape; *J. Philip Geddes* 11/1100
5th Cranfield International Business and Light Aviation Show: a noteworthy success; *Marc Grangier* 11/1102
The Gates Learjet Longhorn: a new family of twin business jets 12/1267
McAlpine Aviation: the biggest HS.125 operator in business aviation; *Marc Grangier* 12/1269

c) Airports

17th ICAA Congress in Vienna: can the real needs be met? *Klaus Höhle* 11/1186

d) Civil aircraft

Indian Airlines puts the Airbus into service and acquires a new dimension; *Peter Tallon* and *Brian Davidson* 3/201
Linjeflyg re-equips with F.28 Fellowships; *Robert Salvy* 3/204
Helicopter hopes on the rise at HAA; *J. Philip Geddes* 4/291
Bell Helicopter's Model 222; *J. Philip Geddes* 4/295
Short-term prospects for new commercial aircraft from the USA; *J. Philip Geddes* 5/517
Europe's major aircraft programmes 6/592
A difficult choice for the airlines: marketing considerations behind the new transports for the 80s 8/794
A.300 facts and figures 8/796
Aérospatiale's A.200 project 8/798
DC-9-55 go-ahead imminent 8/803
The World commercial air transport market to 1991; *J. Philip Geddes* 10/987
Boeing delivers 3,000th jet transport 10/1038
A.300 B10 development decision imminent 10/1076
Lockheed Hercules still a winner and planning to stay that way 11/1149
Advancing transport aircraft technology towards 2000 12/1219

MILITARY AVIATION

a) Military aircraft

V/STOL's coming of age 1/25
The Soviet " Forger " in close-up 1/27
The Sea Harrier—first flight approaches 1/30
Second generation V/STOL—the AV-8B 1/33
The way ahead? 1/41
Some thoughts on a new European fighter; *Roy Braybrook* 1/51
The AMST contest: two contenders versus the reigning champion? *J. Philip Geddes* 1/43
The jet trainer/strike aircraft: cost-effectiveness is the key 3/234
The jet trainer market 3/237
The Mikoyan MiG-23 combat aircraft family; *Georgiy Panyalev* 3/247
Western European views on military helicopters 4/307
Jaguar International prospects; *Derek Wood* 5/495
MiG-25—a weapon system underestimated in the West; *Georgiy Panyalev* 5/498
Europe's major aircraft programmes 6/592
The US Coast Guard's Falcon 20s set new standards for MRS aircraft 6/608
F-16 co-production arrangements essentially complete 8/775
Tornado capabilities in focus 8/780
Flying the YC-15 AMST; *Douglas H. Chopping* 9/931
Canada's Aurora programme brings industrial benefits; *May Willmot* 9/934
Tornado vital for NATO's changing requirements 11/1111
Tornado production: centralized component manufacture—decentralized final assembly 11/1132
Lockheed Hercules still a winner and planning to stay that way 11/1149
Aero L-39 Albatros: Czech bid for basic/advanced trainer market; *Roy Braybrook* 11/1136
UTTAS = Black Hawk. LAMPS = Sea Hawk? 11/1147

b) Miscellaneous

Aircraft firefighting: the French Air Force adopts the powder technique 1/77
Air Forces of the World 1/81
Editorial: Finding money for Western European defence 2/101
Tactical missiles 5/446

SPACE

1977: A vital year for European space ventures; *Martin Deskau* 3/255
Space activities—the international trend continues 5/449
Space Shuttle free flights begin: Approach and Landing Test progress 7/679
The Interim Upper Stage and the Space Shuttle 7/681
Solar power in space: energy for the year 2000? 7/684
Editorial: Space operations—no longer pipe-dreams 7/645
Space hardware and projects 8/830
Twenty years in space: a survey of Soviet achievements 10/1063
Soviet meteorological satellites; *Eduard A. Konstantin* 10/1065
Communications satellites: today, yesterday and tomorrow 12/1251
Development trends in communications satellites 12/1256
Communications satellites in the USSR; *Eduard A. Konstantin* 12/1258

ENGINES

The aircraft engine industry 5/443
CFM56: is the market beginning to develop? 6/606
Guest Editorial: The big commercial engines; *Rod Banks* 6/541
The Turbo-Union RB.199: tailor-made for the Tornado 11/1122
Coating developments for engine hot sections 11/1168

ELECTRONICS

No clear MLS favourite emerges—so far; *Dan Boyle* 1/75
General aviation flight simulators: an expanding market 2/143
Sundstrand maintains lead in GPWS battle—Mark II system on offer; *Douglas H. Chopping* 3/215
Omega Navigation—will the floodgates open? *Dan Boyle* 3/218
DABS and ADSEL—the next generation of secondary radar; *Dan Boyle* 3/221
Electronic Warfare—a major growth industry 3/231
Helicopter IFR operations—a European view; *Capt D. F. Huggett* 4/312
Simulation—a growing factor in helicopter operations 4/339
The equipment sector—a time for consolidation 5/452
Airport surface movement indication: Decca sees growing market 6/610
A large market emerging for sea patrol radars 6/619
Trends in flight deck instrumentation from Smiths Industries; *Michael Brown* 7/736
Hollandse Signaal ASDE at Schiphol 7/744
Electronic developments at the Paris Air Show 8/827
Weather radars for business aircraft: the revolution has begun 9/877
New wine in old bottles: a British view of the military aircraft retrofit market; *Derek Wood* 10/1047
Ground radar catalogue—Part 1 10/1050
MLS—Controlled descent into confusion? *Dan Boyle* 11/1163
Ground radar catalogue—Part 2 11/1181
Cockpit 2000; *Dan Boyle* 12/1224
Communications satellites: today, yesterday and tomorrow 12/1251
Development trends in communications satellites 12/1256
Communications satellites in the USSR; *Eduard A. Konstantin*: 12/1258
Total energy in the Airbus 12/1271

INDUSTRY (general)

V/STOL's coming of age 1/25
The Soviet " Forger " in close-up 1/27
The Sea Harrier—first flight approaches 1/30
Second generation V/STOL—the AV-8B 1/33
The way ahead? 1/41
The AMST contest: two contenders versus the reigning champion? *J. Philip Geddes* 1/43
The Belgian aerospace industry gets ready for the F-16; *Robert Salvy* 1/55
Are the US airliner manufacturers facing five hard years? *John F. Brindley* 1/63
No clear MLS favourite emerges—so far; *Dan Boyle* 1/75
Editorial: The pros and cons of transatlantic cooperation 1/5
General aviation in the USA: the moment of truth 2/115
Exports essential for US general aviation manufacturers 2/121
The Dassault-Breguet Falcon 50 begins flight tests; *Marc Grangier* 2/134
The Beech Bonanza: thirty years young; *Marc Grangier* 2/137
General aviation flight simulators: an expanding market 2/143
Islander family survey: Fairey's rescue pays off; *Derek Wood* 2/147
Agricultural aircraft on show; *J. Philip Geddes* 2/171
The jet trainer/strike aircraft: cost-effectiveness is the key 3/234
The jet trainer market 3/237
Sundstrand maintains lead in GPWS battle—Mark II system on offer; *Douglas H. Chopping* 3/215
Omega Navigation—will the floodgates open? *Dan Boyle* 3/218
DABS and ADSEL—the next generation of secondary radar; *Dan Boyle* 3/221
Electronic Warfare—a major growth industry 3/231
Advanced propulsion systems for missiles; *J. Philip Geddes* 3/250
Helicopter hopes on the rise at HAA; *J. Philip Geddes* 4/291
Bell Helicopter's Model 222; *J. Philip Geddes* 4/295
Simulation—a growing factor in helicopter operations 4/339

The French aerospace industry—on course for the 1980s? 5/419
French aircraft—1977 5/438
The aircraft engine industry 5/443
Tactical missiles 5/446
Space activities—the international trend continues 5/449
The equipment sector—a time for consolidation 5/452
Short-term prospects for new commercial aircraft from the USA; *J. Philip Geddes* 5/517
Jaguar International prospects; *Derek Wood* 5/495
US aerospace looks forward to 1985—trimmed-down industry remains optimistic; *J. Philip Geddes* 6/571
European aerospace industry: competitiveness and market shares 6/587
The European industry in figures 6/589
Europe's major aircraft programmes 6/592
The Swiss aircraft industry: a big effort for a small country; *Chris Bulloch* 6/603
CFM56: is the market beginning to develop? 6/606
A large market emerging for sea patrol radars 6/619
Composites: large-scale use is getting nearer; *Irwin Stambler* 6/621
Space Shuttle free flights begin: Approach and Landing Test progress 7/679
The Interim Upper Stage and the Space Shuttle 7/681
Solar power in space: energy for the year 2000? 7/684
Trends in flight deck instrumentation from Smiths Industries; *Michael Brown* 7/736
US aerospace looks forward: Part II—near-term military needs; *J. Philip Geddes* 7/695
A difficult choice for the airlines: marketing considerations behind the new transports for the 80s 8/794
A.300 facts and figures 8/796
Aérospatiale's A.200 project 8/798
DC-9-55 go-ahead imminent 8/803
The Italian aerospace industry; *Robert Salvy* 8/805
F-16 co-production arrangements essentially complete 8/775
Tornado capabilities in focus 8/780
Business aviation in the USA: a review of the industry; *Marc Grangier* 9/871
Reading Show continues to flourish; *Howard Levy* 9/895
Atlantic Aviation: a front-runner for 50 years; *Marc Grangier* 9/897
Lockheed JetStar II flight report; *Douglas H. Chopping* 9/900
Flying the YC-15 AMST; *Douglas H. Chopping* 9/931
Canada's Aurora programme brings industrial benefits; *May Willmot* 9/934
The World commercial air transport market to 1991; *J. Philip Geddes* 10/987
Boeing delivers 3,000th jet transport 10/1038
New wine in old bottles: a British view of the military aircraft retrofit market; *Derek Wood* 10/1047
Swiss tiptop Aircraft Products: revolutionizing galley design 10/1067
A crashworthy, armoured helicopter seat from ARA 10/1068
A.300 B10 development decision imminent 10/1076
Tornado vital for NATO's changing requirements 11/1111
The Turbo-Union RB.199: tailor-made for the Tornado 11/1122
Tornado production: centralized component manufacture—decentralized final assembly 11/1132
Lockheed Hercules still a winner and planning to stay that way 11/1149
Aero L-39 Albatros: Czech bid for basic/advanced trainer market; *Roy Braybrook* 11/1136
UTTAS = Black Hawk. LAMPS = Sea Hawk? 11/1147
Editorial: European collaboration—accentuating the positive 11/1089
Advancing transport aircraft technology towards 2000 12/1219
Cockpit 2000; *Dan Boyle* 12/1224
Total energy in the Airbus 12/1271
France's aerospace industry, 1976-1977 12/1279

CONFERENCES AND EXHIBITIONS

Agricultural aircraft on show; *J. Philip Geddes* 2/171
Helicopter hopes on the rise at HAA; *J. Philip Geddes* 4/291
32nd Paris Air Show exhibitors 5/394
Paris Air Show report 7/663
Electronic developments at the Paris Air Show 8/827
Space hardware and projects at Paris 8/830
Reading Show continues to flourish; *Howard Levy* 9/895
17th ICAA Congress in Vienna: can the real needs be met? *Klaus Höhle* 11/1186
US general aviation in fine shape; *J. Philip Geddes* 11/1100
5th Cranfield International Business and Light Aviation Show: a noteworthy success; *Marc Grangier* 11/1102

DATA TABLES

US piston-engined light aircraft technical data 2/151
Business aircraft technical data tables 9/883
Pillars of World air transport 10/1003
Ground radar catalogue—Part 1 10/1050
Ground radar catalogue—Part 2 11/1181
